BASIC MARKET STRUCTURE

Up Trend Bullish Market Structure

THEORY

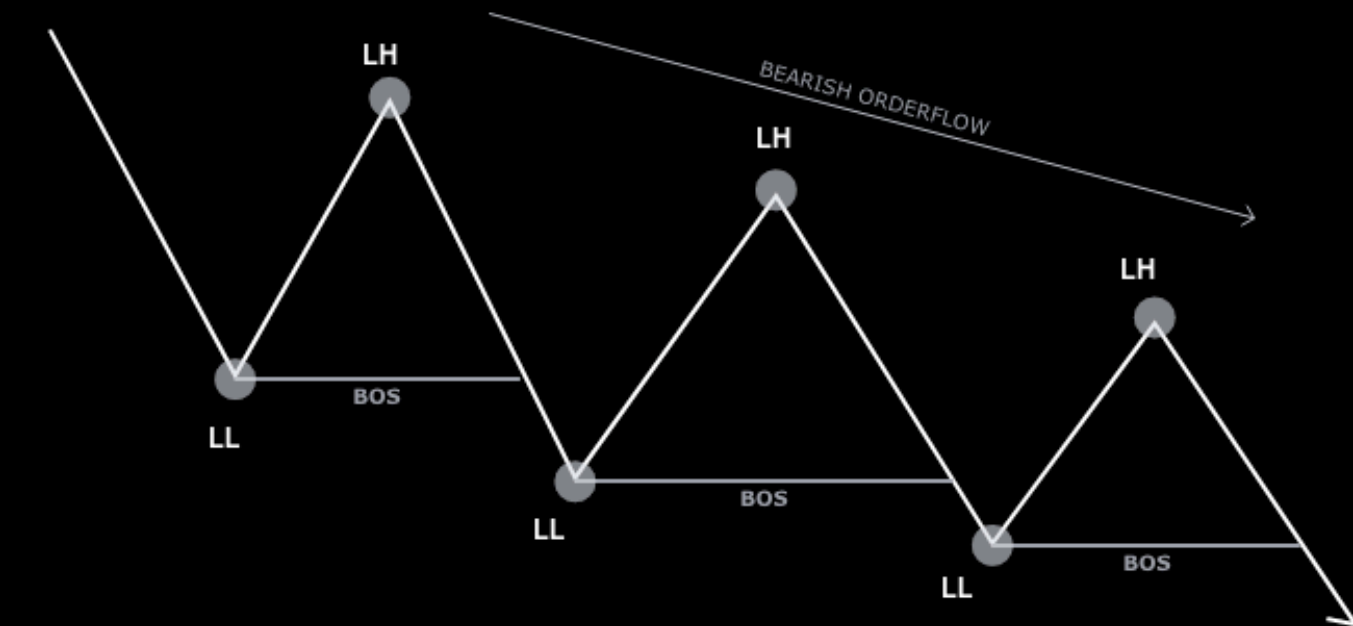

REALITY

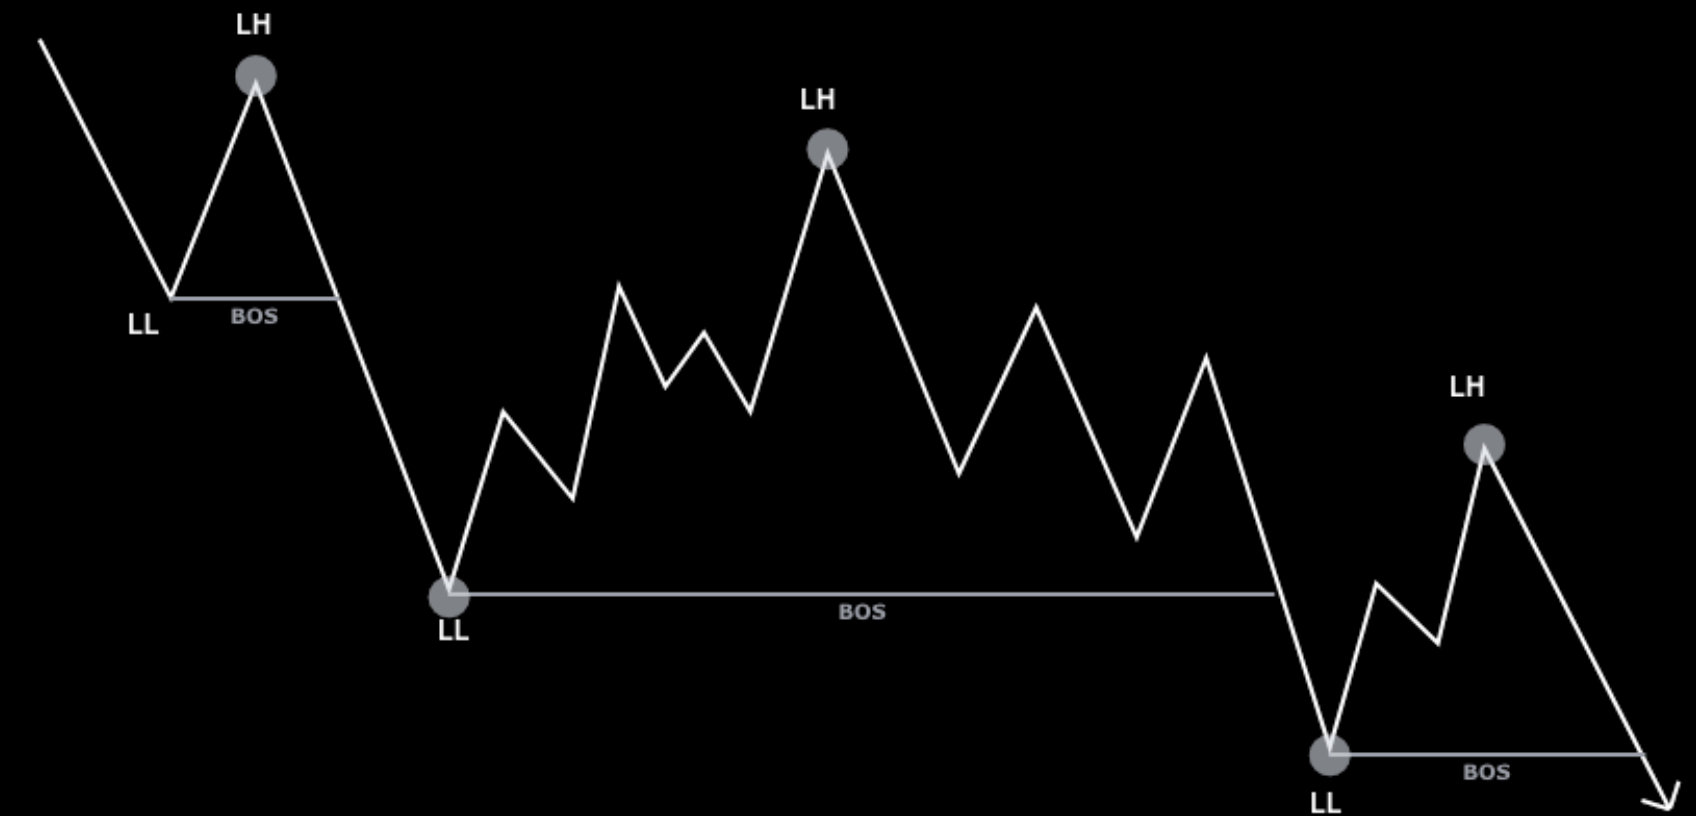

Down Trend Bearish Market Structure

THEORY

REALITY

SWING HIGH = highest point that caused the swing low
 SWING LOW = lowest point that caused the swing high
 Internal structure = everything between swing high & low

After a BOS -> expect a pullback on that timeframe

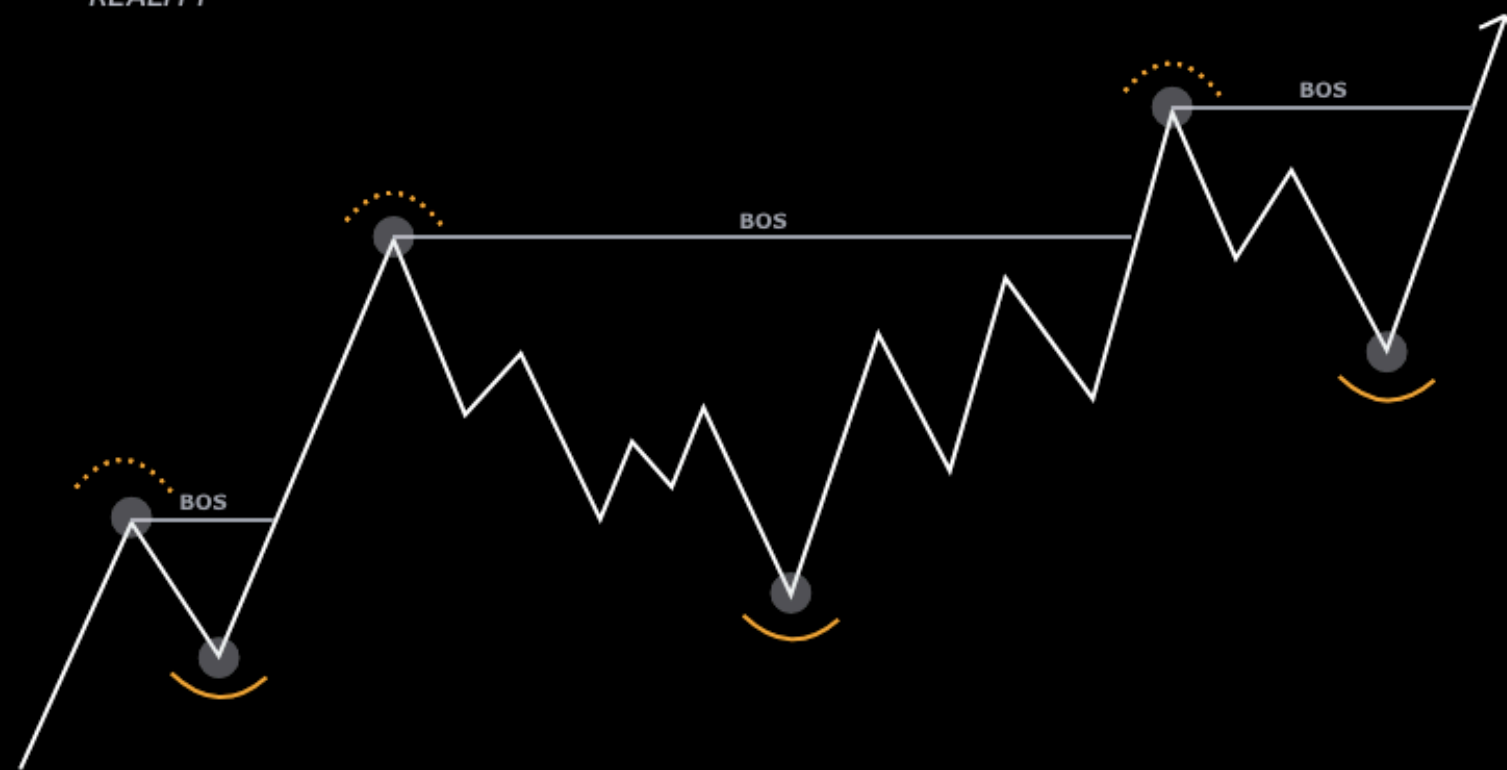

STRONG & WEAK HIGHS/LOWS

REALITY

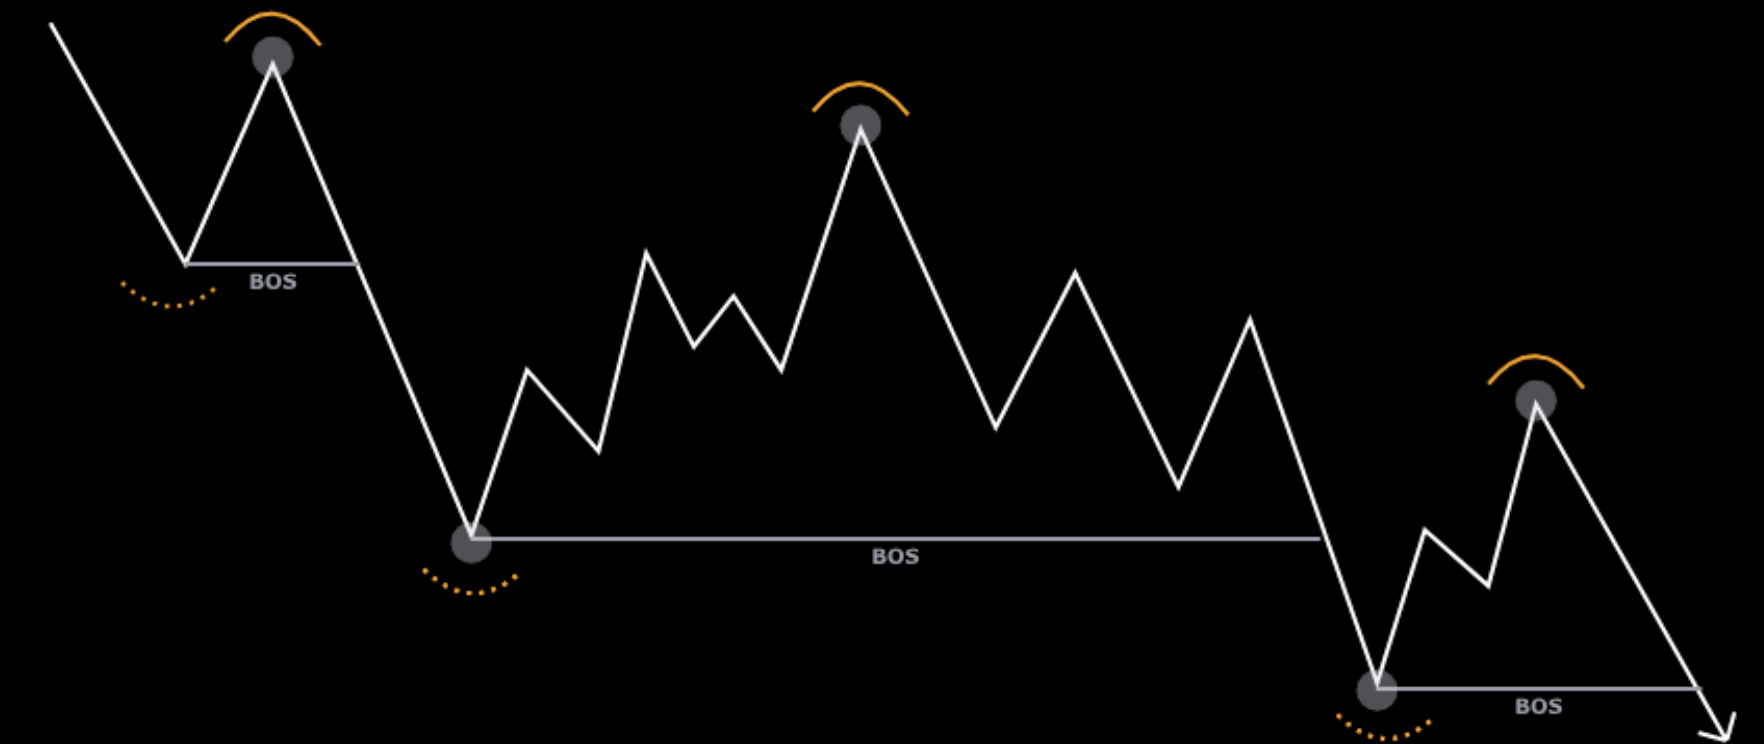

Down Trend Bearish Market Structure

THEORY

REALITY

 STRONG
 WEAK

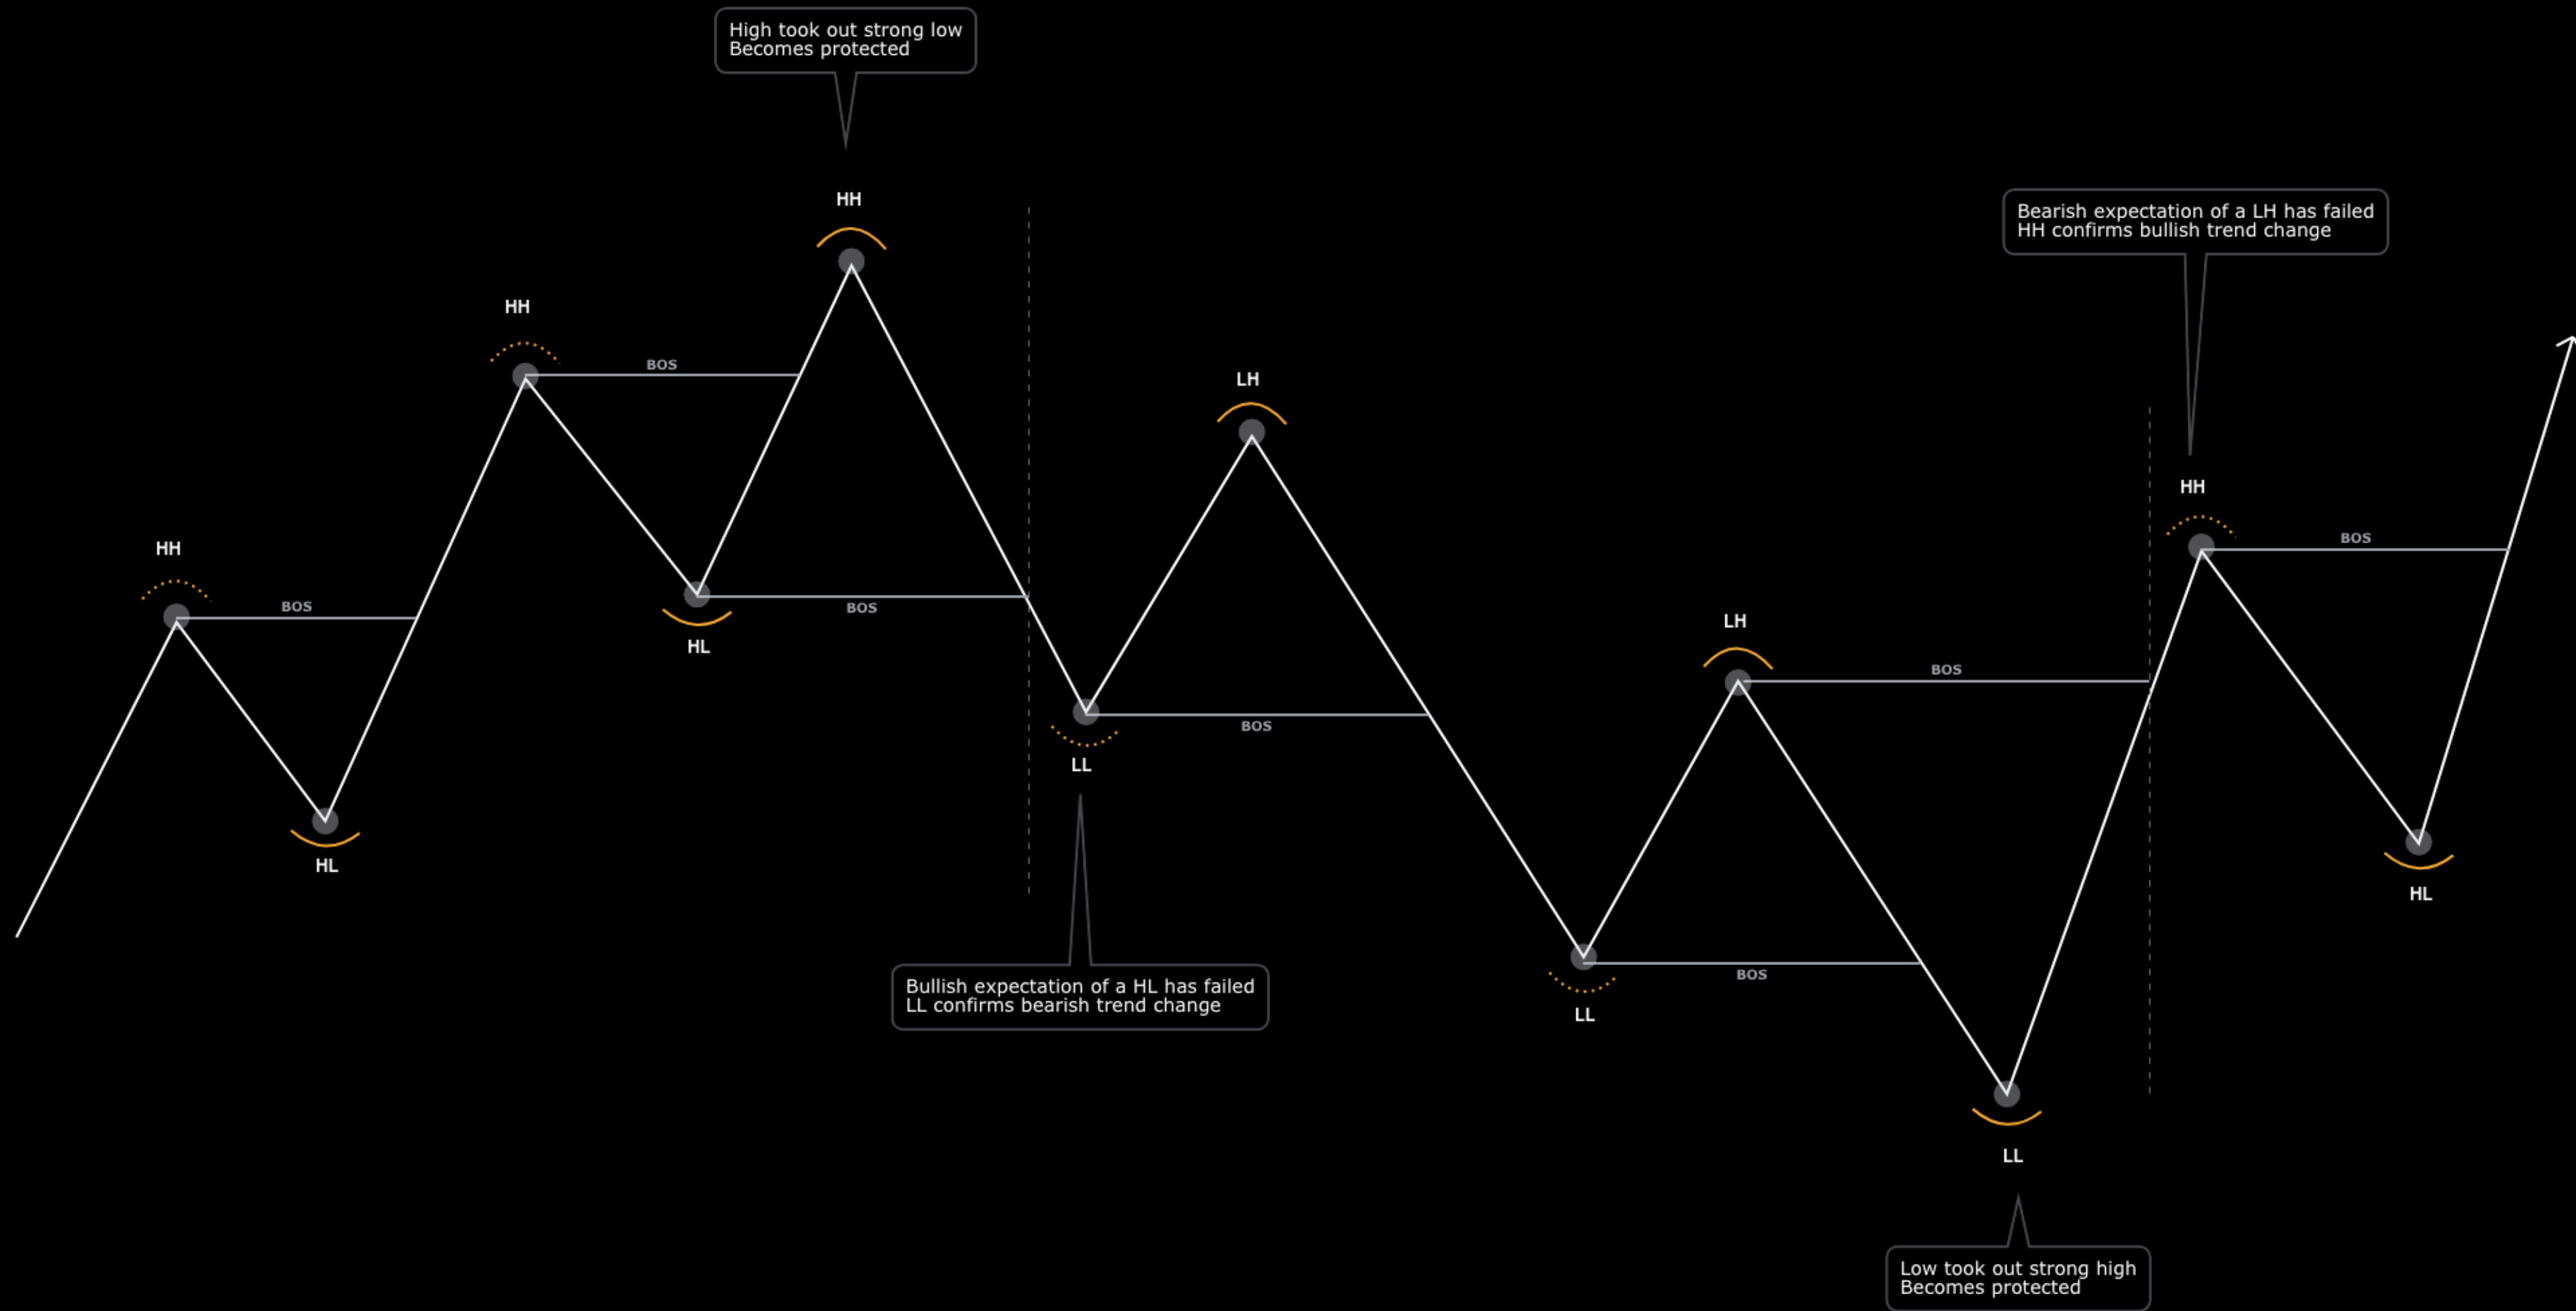

STRONG LOW = lows that caused highs (HL's)

STRONG HIGH = highs that caused lows (LH's)

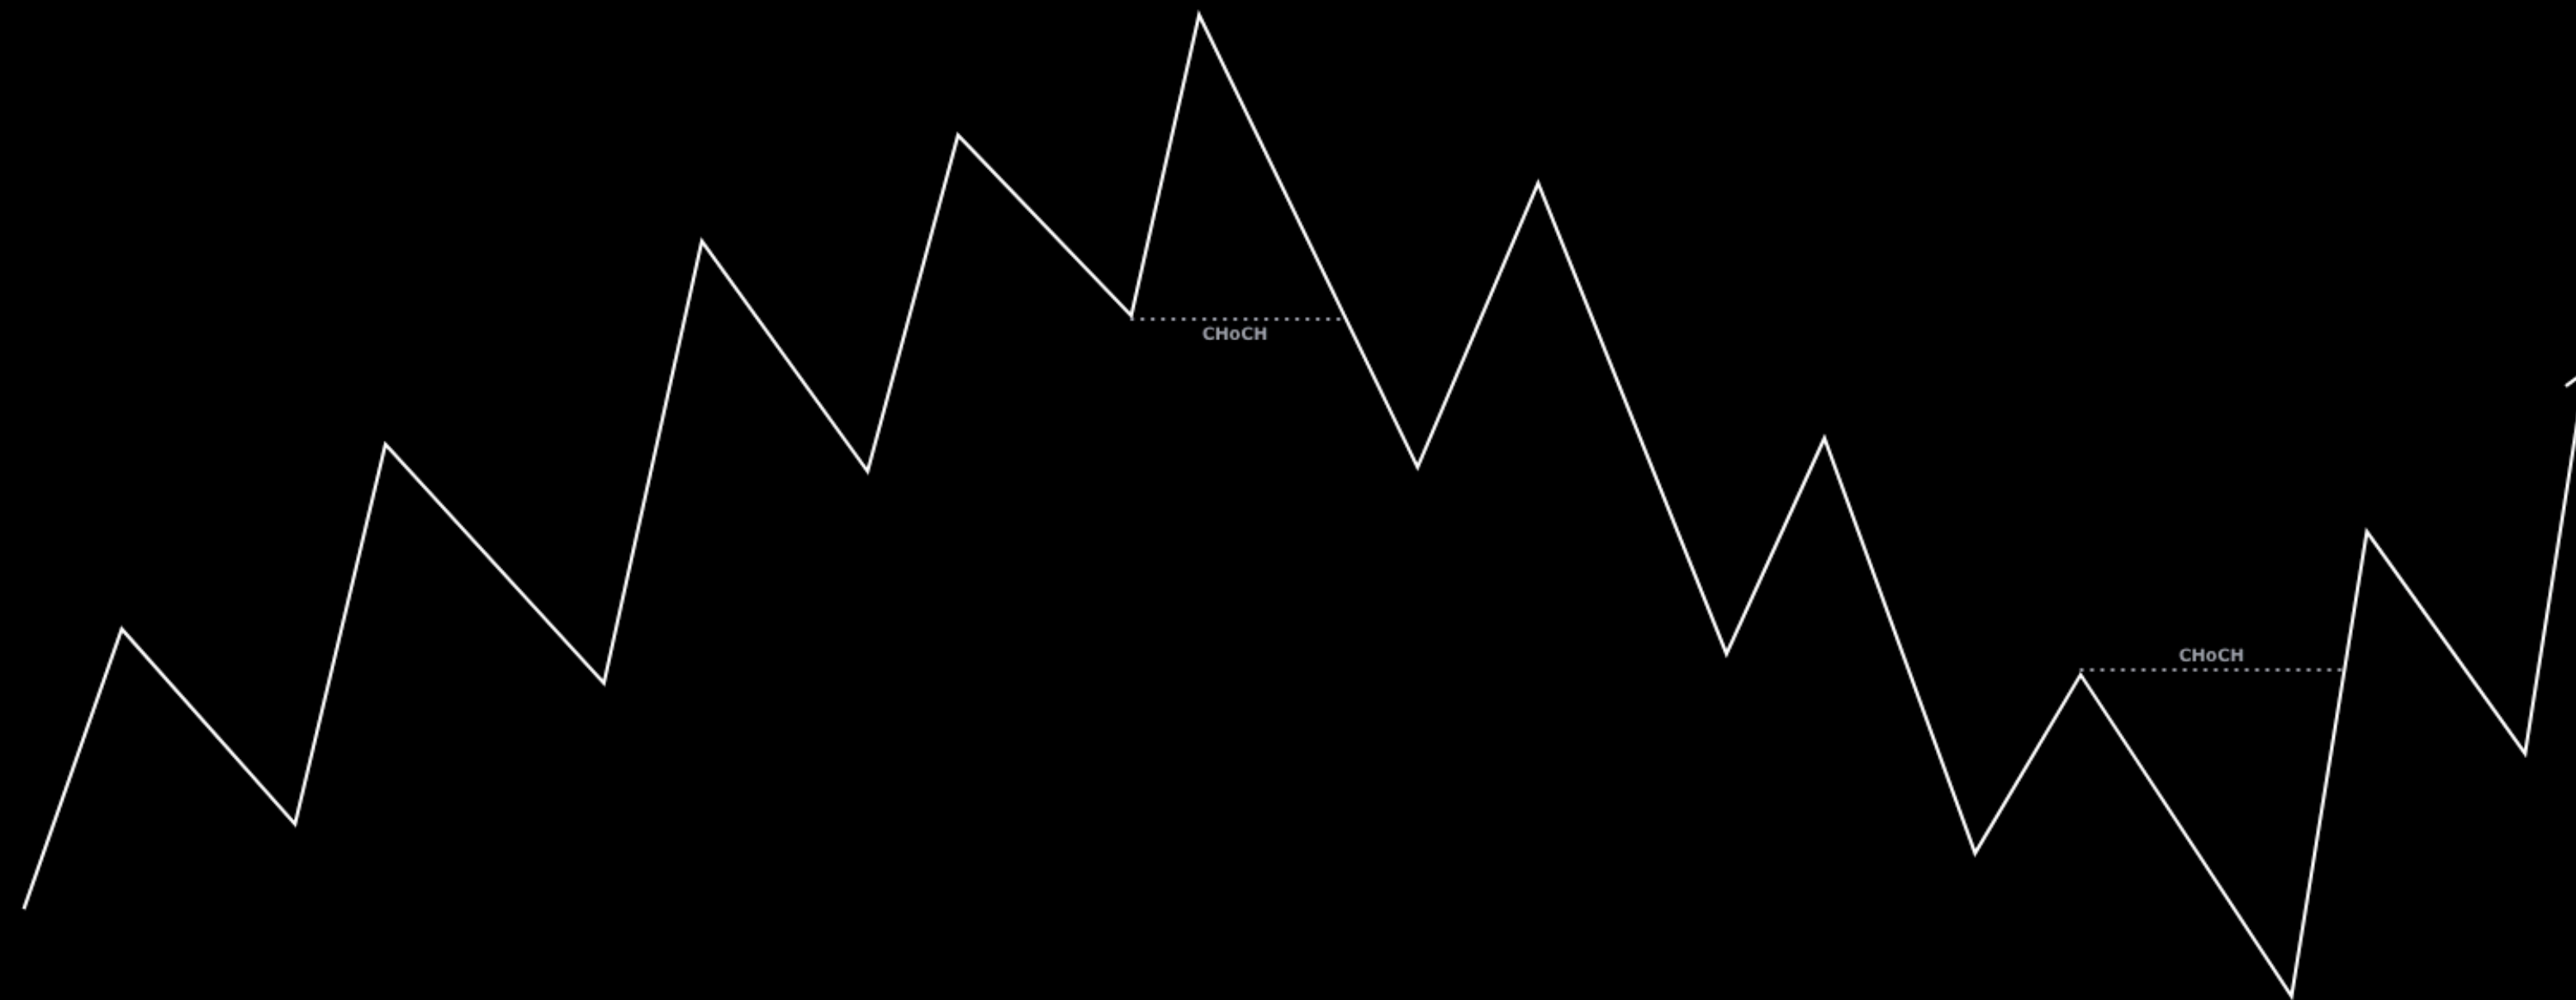

Usually form with a sharp move away + larger candles

 GOAL = catch HL's and LH's (continuations)

TREND CHANGE

Change of Character (CHoCH)

Bullish structure changing to bearish structure (vice versa)
Generally used for internal structure

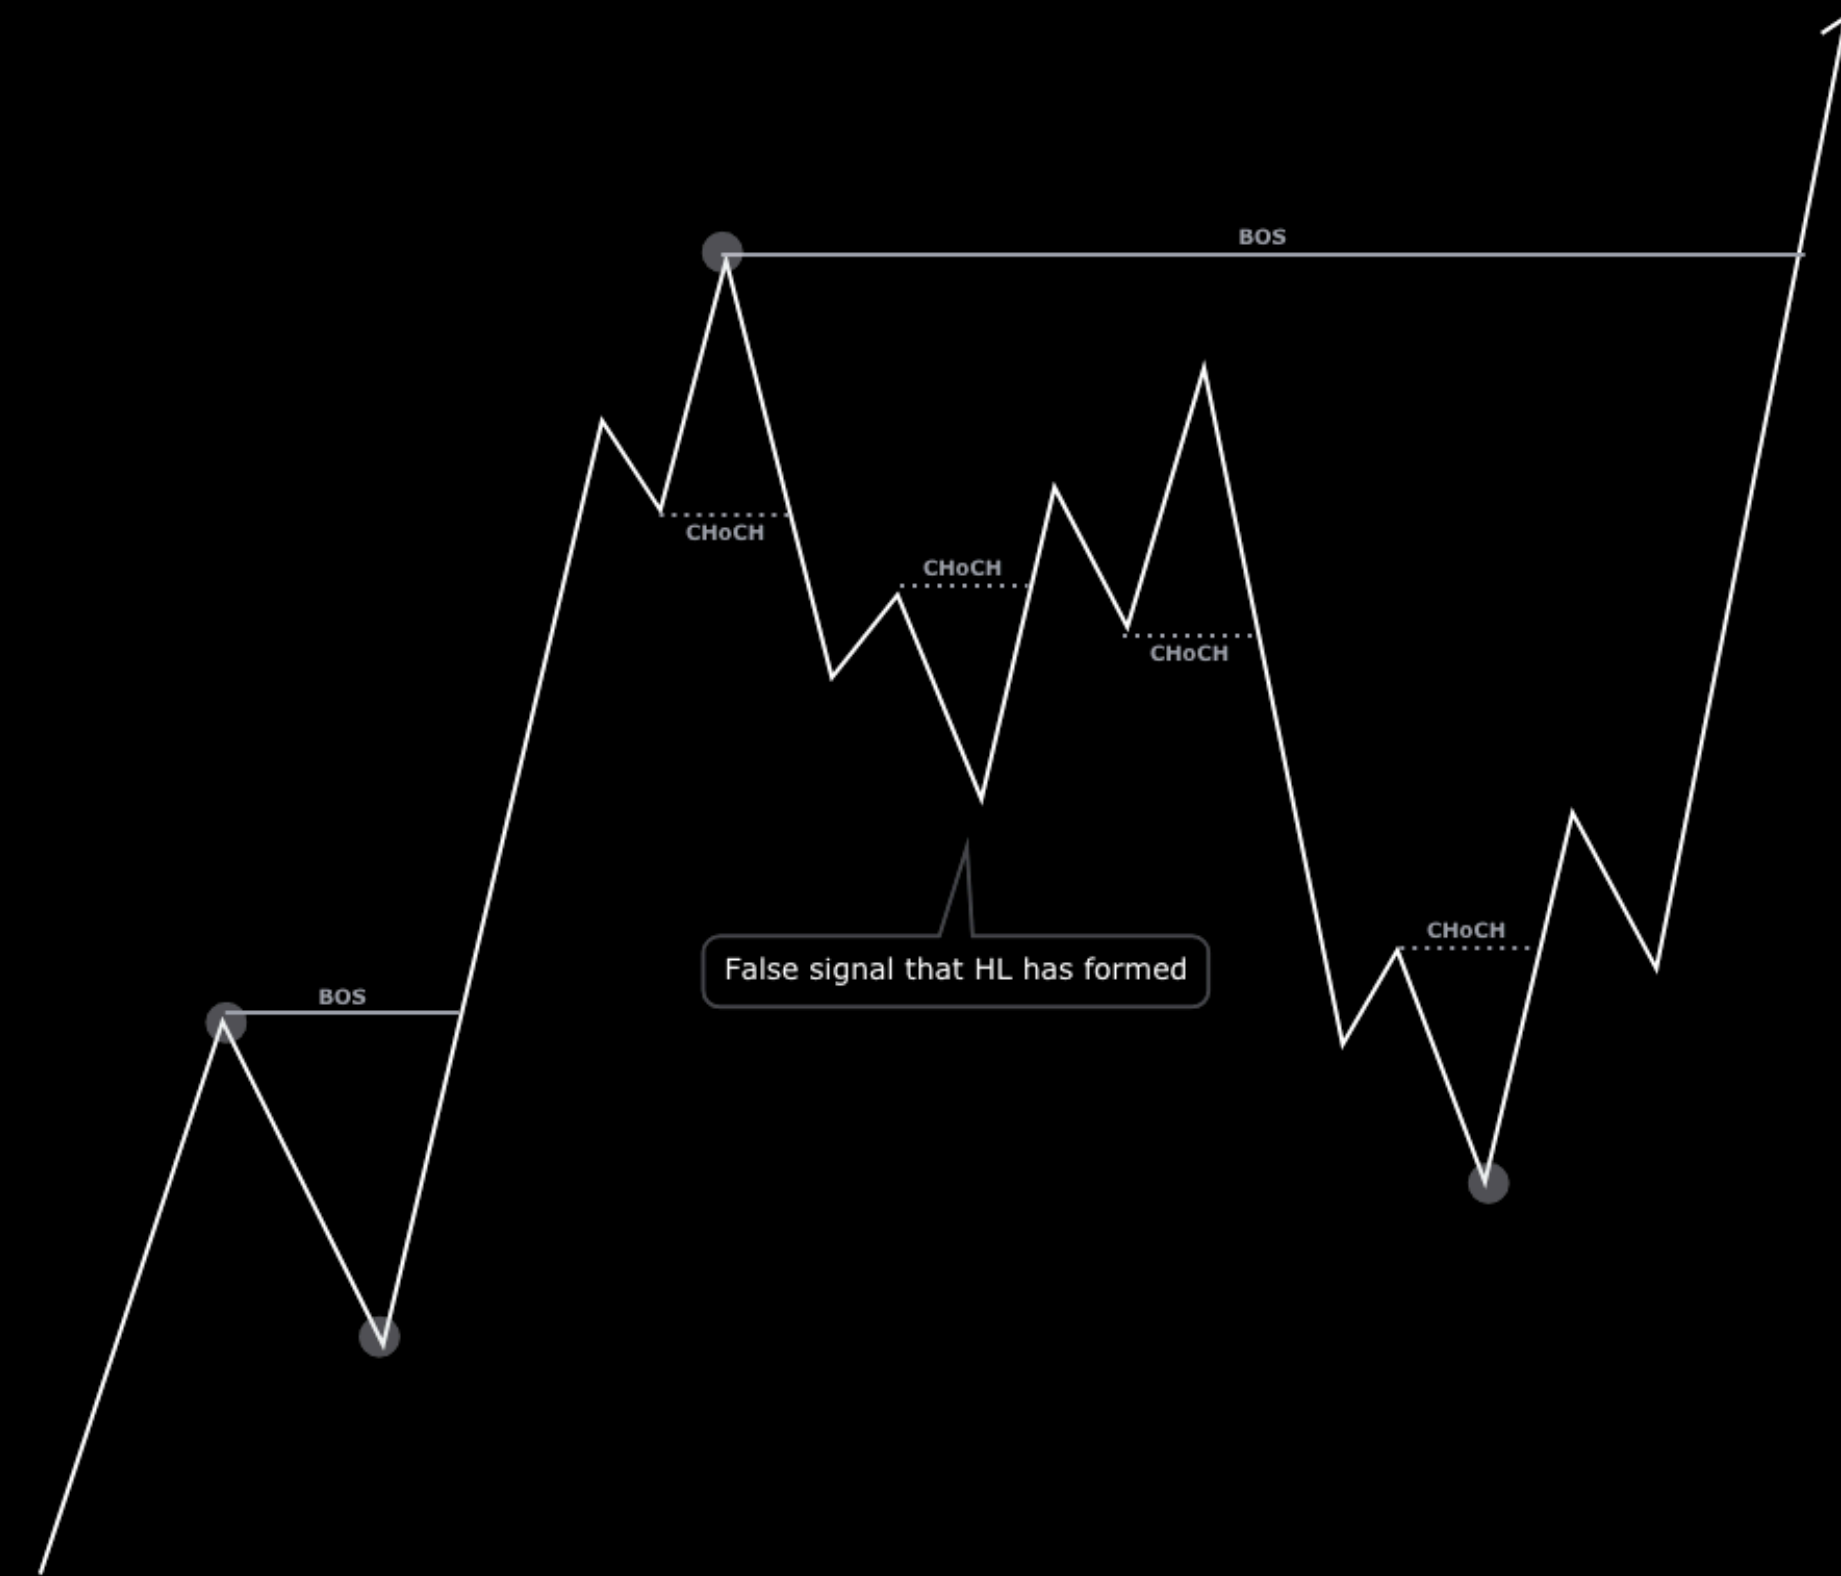

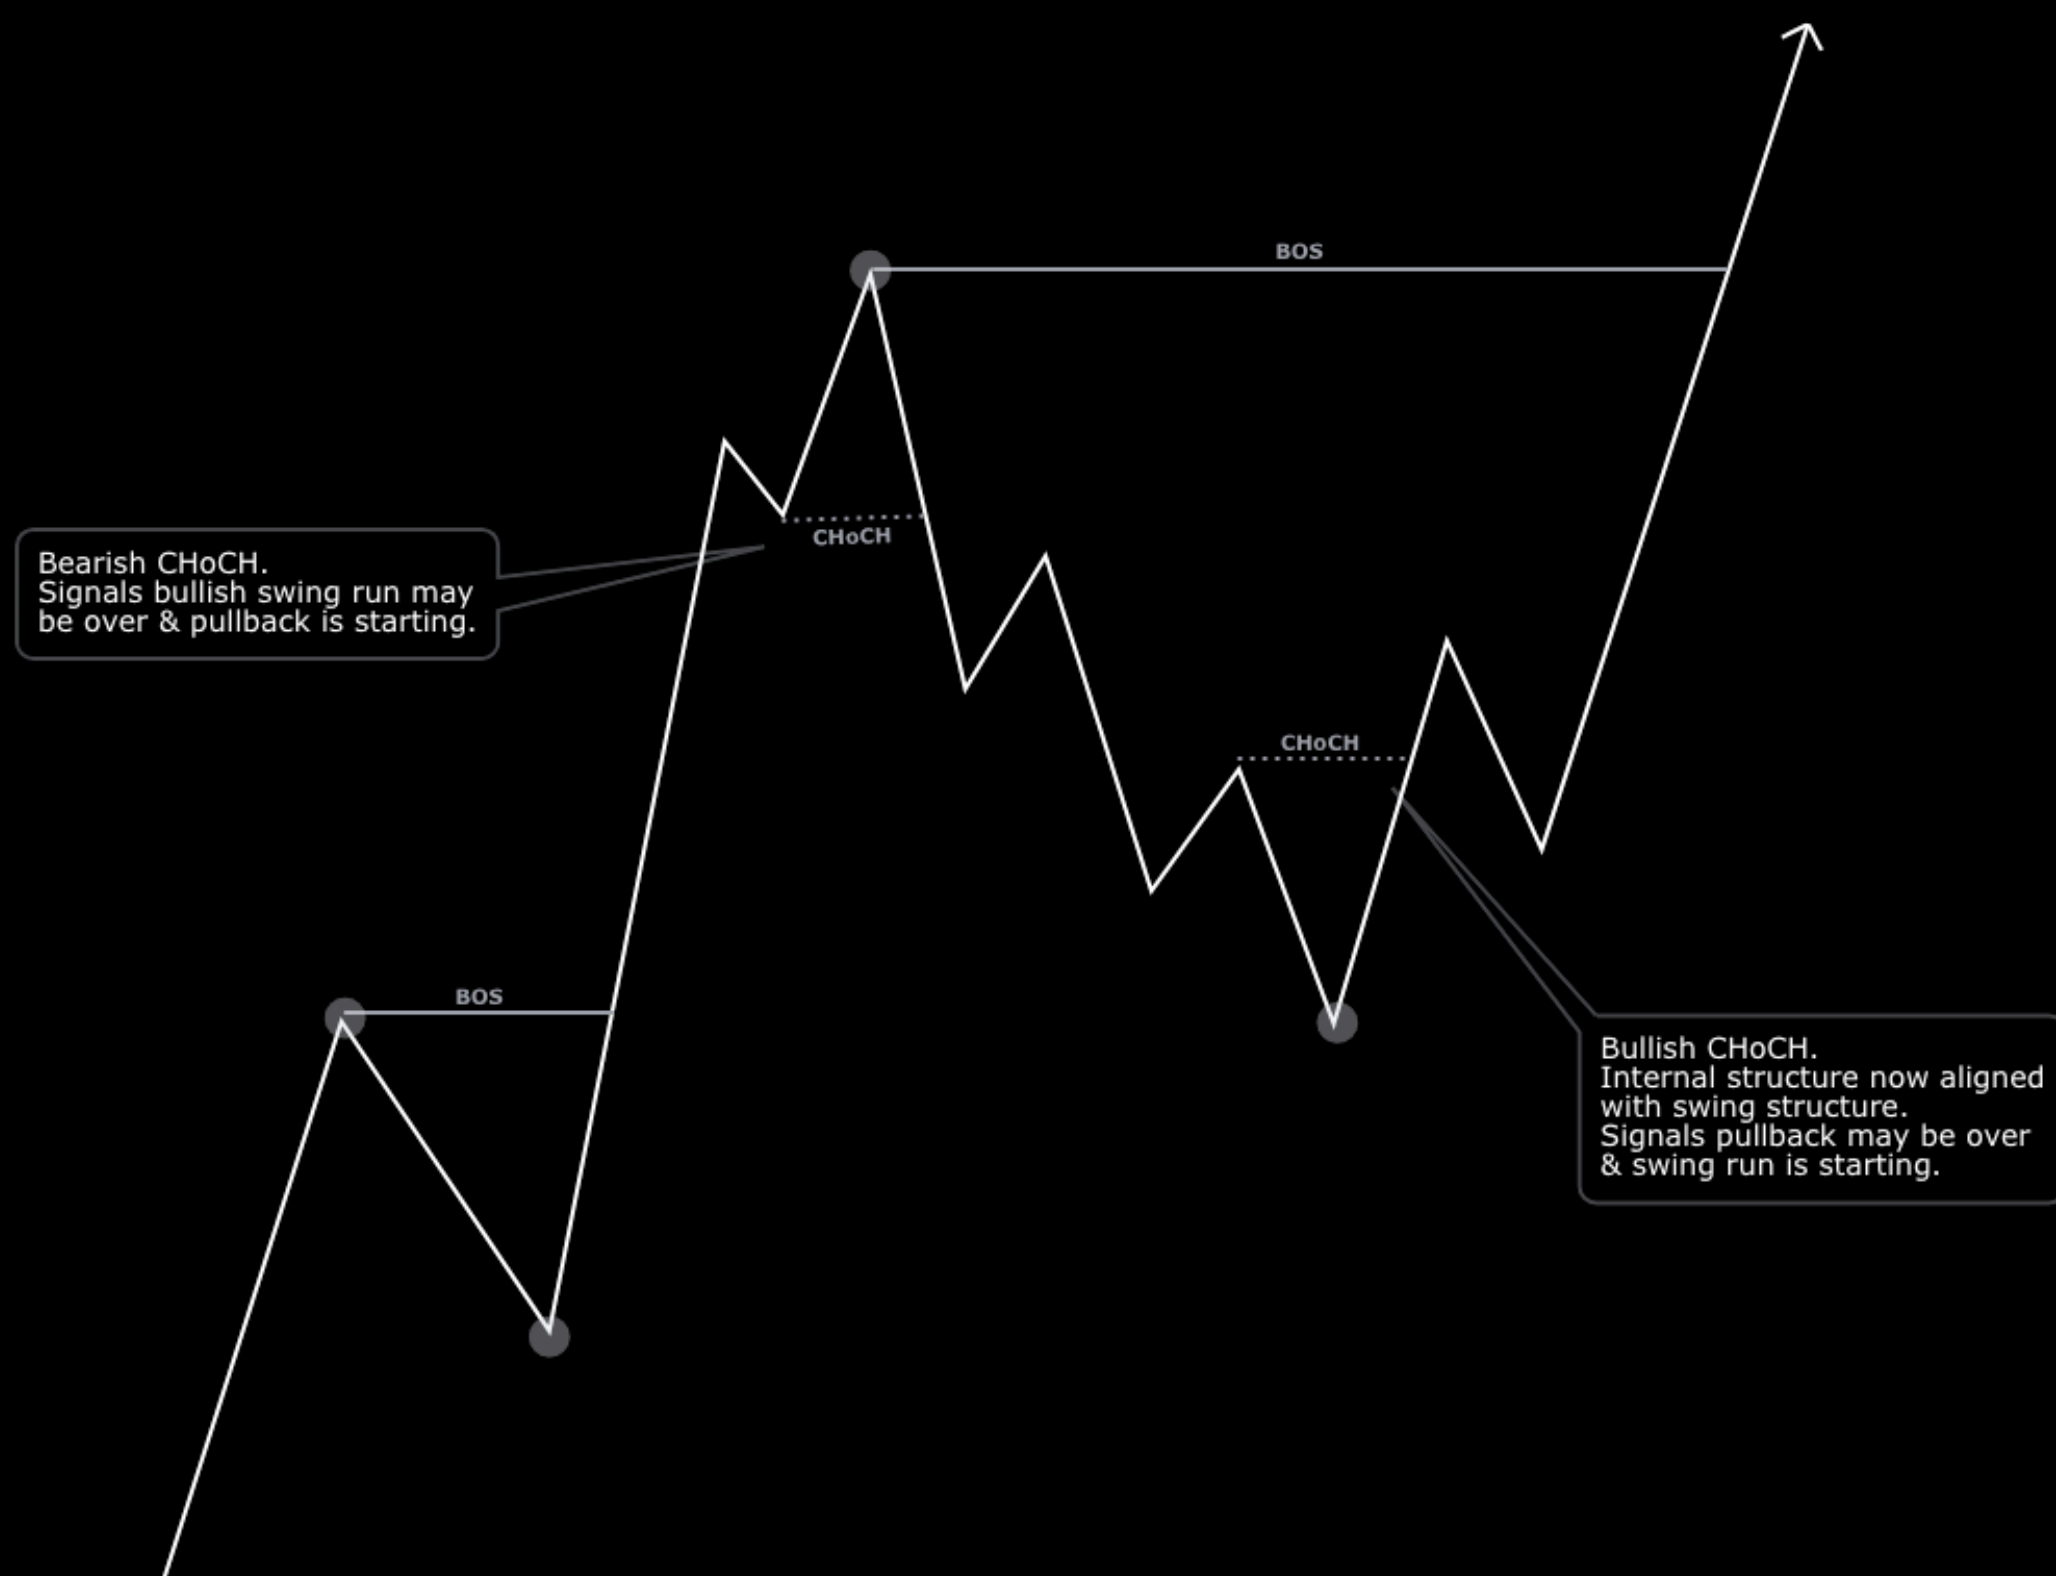

Increase confluence with:

- MTF Analysis
- Supply & Demand
- Liquidity
- Premium/Discount

Change of Character (CHoCH)

Signals when a run may be finished & a pullback is starting
and when a pullback has finished & a run is starting.

Not a guarantee -> can give false signals
