

Qualifications Required

1. Must be a Forex Factory member with or without vouchers.(The thing is members need to have at least 5 vouchers before they can rate the thread for this system but since I would be taking all 5 as a group, they can vouch for each other amongst themselves and still get 5 vouchers at the end of the course).
2. Must be open-minded, optimistic and willing to take risks within their budget; *see 3 below*. (I cannot overstress these qualities as ‘unbelievers’ are a serious headache to deal with).
3. Must be able to meet the cost of the product without having to borrow money to purchase the services (Well I cannot really monitor this because some folks could be quite desperate, the non-negotiable price of this system is stated in the Introduction.pdf file attached).
4. Must have a valid Paypal account with which a transfer can be made to another Paypal account within 3 days of notification.
5. Must have a valid Skype ID and averagely fast internet speed to facilitate communication for the Q & A and practical trading sessions.
6. Preferably would be someone who has a 9 to 5 job and thus doesn’t have the luxury of sitting and starrng at the monitor or a long-term trader. I don’t discriminate but this system/method is neither suited for a scalper nor for a short-term trader; it is for those who have the **patience** to **wait** for **days** or **weeks** to see their account **gradually** increase. All that is needed is to check the performance once a day and from my experience scalpers and short-term traders would not obey this rule hence messing up the results of the system.
